Project 7

Queries:

1. What is the average session time for a walk in who was being tutored in a math class
2. What are the names and IDs of the top 3 tutors who work the most
3. What class has the most walk-in's
4. What tutor can tutor the most classes
5. Who is working on Monday and can tutor more than three math classes
6. What were the top 3 longest walk-in's sessions and what classes were they for
7. Who is working on Fridays at 10AM and what can they tutor
8. What student visited the most, and what was the primary class they were getting tutored in
9. What student visited for the longest total time
10. What is the total number of hours the least tutored class is covered for.
